SUMMARY

Motivated Junior Frontend Developer skilled in React and TypeScript, with a strong focus on building responsive, scalable, and user-friendly applications. Experienced in Clean Architecture, Atomic Design, and Gitflow, with a passion for writing maintainable code and continuously learning new technologies.

EXPERIENCE

Frontend Developer Intern | AfaaqWare 🌐 01/2026 – 03/2026 | Remote

- Architected a React application using Clean Architecture patterns, improving code maintainability and enabling 90%+ unit test coverage for features developed
- Built 12+ reusable UI components following Atomic Design methodology, reducing CSS duplication by ~40% and accelerating feature development across the team
- Established Git Flow workflows and led code review process for 8+ features, ensuring zero production incidents across releases

SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML, CSS

State & Data: Zustand, Redux, Context API, React Query

Styling: Tailwind CSS, Bootstrap, HeroUI, shadcn

Methodologies: Clean Architecture, Atomic Design, Component-Based Architecture

Tools: RESTful APIs, Git, GitHub, Git Flow, Vercel, Figma, Postman, Vite

PROJECTS

Freshify — E-Commerce Platform 🌐

Next.js, React, Tailwind CSS, NextAuth (authentication), React Hook Form, Zod (validation)

- Built 8-page e-commerce storefront with SSR, sub-2s load times, 95%+ Lighthouse score
- Integrated REST APIs & React Query state management, reduced API calls 60%, improved TTI by 2s

Social Media Platform 🌐

React · React Router · Tailwind CSS · Axios · React Hook Form · Zod · Framer Motion

- Built auth, posts, comments system; eliminated prop-drilling across 12+ components, reduced nesting 3 levels
- Structured 30+ components (Atomic Design), reduced future setup time 40%, zero-duplication reuse

YumRun — Food Delivery App 🌐

React, Redux Toolkit (state management), React Router, Tailwind CSS, Framer Motion, React Icons

- Delivered mobile-first food delivery UI, optimized bundle 30% (React.lazy/Suspense), 3.2s load time
- Implemented error boundaries & loading states, reduced user-facing errors 85% on slow networks (3G)

Skillpath — E-Learning Platform 🌐

React · React Router · Tailwind CSS · Swiper · Framer Motion

- Built a multi-page e-learning platform with course listings, dynamic navigation, and fully responsive layouts across all breakpoints
- Structured the UI into reusable components following a scalable component architecture, reducing code duplication across pages

Binary Coffee 🌐 , Freelance project

01/2026

- Built a modern coffee-themed web application with interactive UI and smooth animations
- Implemented dynamic components and responsive layouts
- Technologies: React, Vite, JavaScript (JSX), Tailwind CSS, Framer Motion, React Icons

EDUCATION

B.Sc. in Computer Science, GPA: 3.7/4.0, Mansoura University

09/2019 – 07/2023 | Mansoura, Egypt
